F-H Section	118"	13"	13.5"		118"	7.686"	7.936"

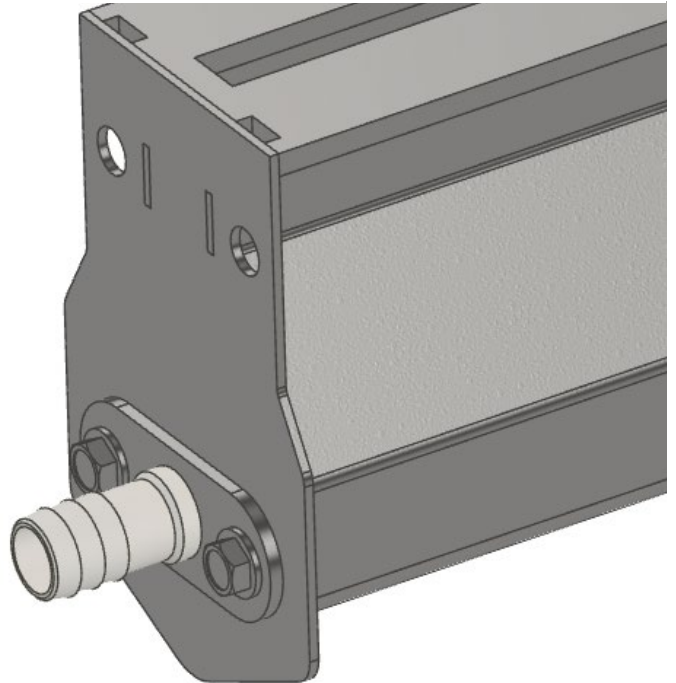

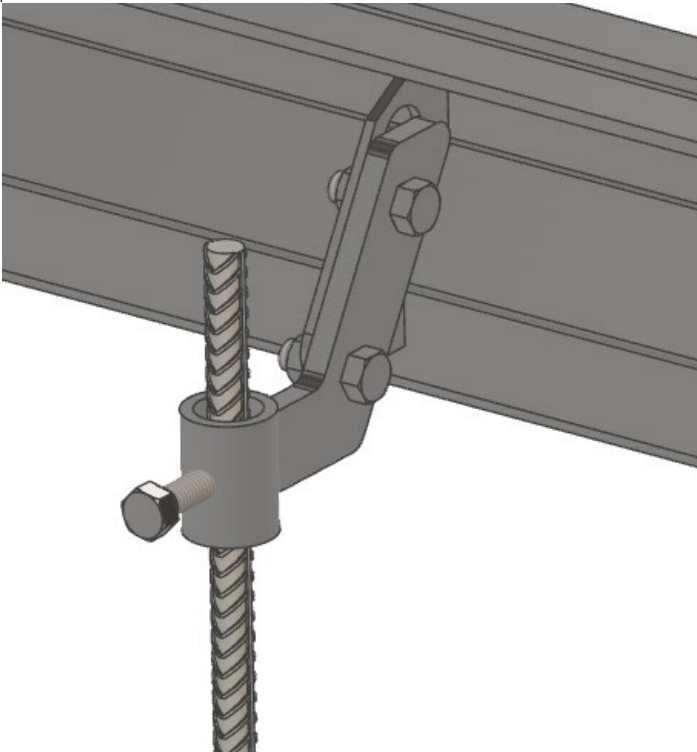

Ez Drain is a simple and affordable solution for in-floor building drainage system.

Our Trough Profile is designed with steeper wall sides than other competing floor slot trough drains. This increases loading capacity. Reduced likelihood of surrounding concrete collapsing in unusual loading situations.

Shown with perforated lid plate

Barely, noticeable, neat look. Water will drain away leaving all residue and particles in strainer basket for dumping

Adjustable height Bracket, Number of staking brackets, customizable Hose barb for trough flushing water line

Manufacturing

Built Local

Ez Drains are designed & manufactured in Southeast Minnesota. We utilize locally sourced materials, and in-house state of the art equipment at our 75,000 sq. ft Metal Fabrication Facility. Research, continuous improvement, quality manufacturing ensures that you are receiving the best product for your hard earned dollars.
